Introduction

This report outlines the University of Business and Technology's (UBT) initiatives and contributions toward Sustainable Development Goal 6 (SDG06): Clean Water and Sanitation, as part of the Times Higher Education (THE) Impact Rankings. It presents UBT's efforts to promote sustainable water management, improve sanitation systems, and enhance water accessibility through academic and research endeavors.

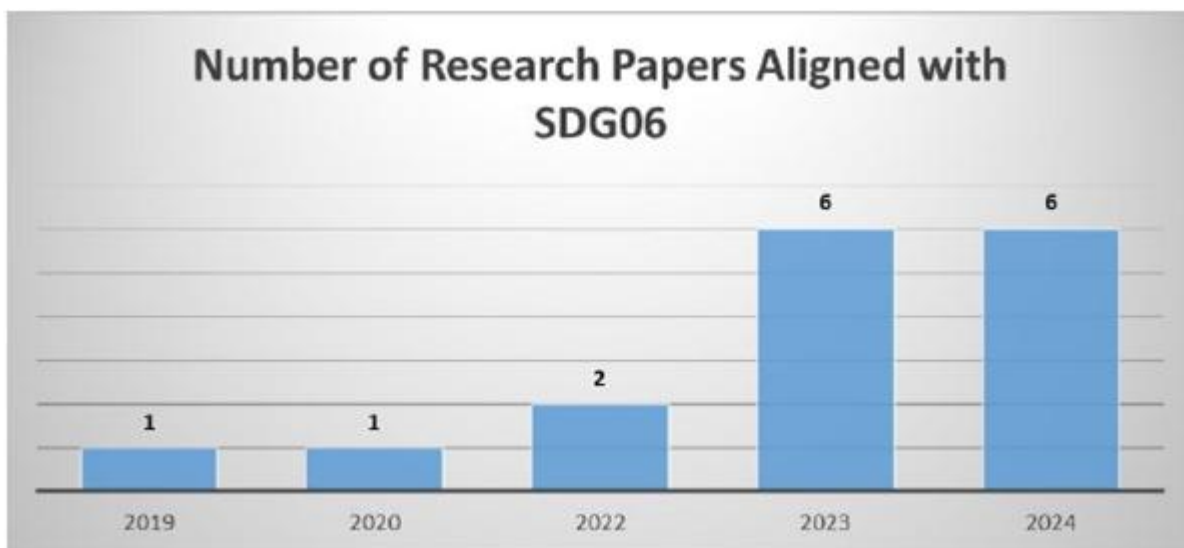

The report highlights the alignment of 14 academic courses with SDG06, focusing on water conservation, sustainable practices, and the design of innovative solutions to address water-related challenges. Additionally, it showcases 16 research projects dedicated to advancing water purification technologies, resource management strategies, and collaborative solutions for underserved communities.

Research's Alignment with The SDG

UBT has produced 16 research projects aligned with SDG06. These research initiatives address:

- Studies on sustainable water resource management and conservation strategies.
- Research on advanced technologies for water purification and sanitation systems.
- Collaborative efforts with organizations to improve water accessibility in underserved communities.

These research activities reflect UBT's commitment to advancing sustainable water and sanitation practices.

Courses' Alignment with The SDG

The University of Business and Technology (UBT) has aligned 14 courses with SDG06. These courses focus on:

- Water conservation, management, and sustainable practices.
- Exploring the impact of clean water accessibility on health and community development.
- Designing solutions for water quality improvement and effective sanitation systems.

These academic programs prepare students to address challenges in water sustainability and sanitation through innovative and practical approaches.
