

SUSTAINABLE DEVELOPMENT GOALS

10 REDUCED INEQUALITIES

10.6.10 Does your university as a body have reasonable accommodation policy/strategy implemented, including adequately funded mechanism for persons with disabilities?

Yes, UBT places a strong emphasis on supporting students with special needs, underlining its commitment to justice, equality, and inclusivity for individuals of all genders, races, and physical and mental abilities (Refer to Evidence No. 1: Equality, Justice, and Tolerance

Policy). Recognizing the importance of fostering a supportive environment, the university has established a specialized center on campus dedicated to addressing the specific needs of students and staff in this category.

This center operates under well-defined policies designed to accommodate their unique requirements and ensure equitable access to educational opportunities. Continuous monitoring of individual cases is conducted by dedicated representatives, ensuring personalized support and prompt responses to evolving needs. To further enhance the experience of students with special needs, the center has developed a detailed guide, shared with faculty members, to equip them with the knowledge and tools to effectively interact with and support these individuals (Refer to Evidence No. 2: Educational Support Center Handbook).

In addition to these measures, the university offers financial assistance to students with special needs in the form of a 25% tuition scholarship, alleviating financial barriers and reinforcing its commitment to equal access to education (Refer to Evidence No. 3).

This comprehensive approach reflects the university's dedication to inclusivity and its mission to create an environment where all students can thrive.
