Introduction

This report highlights the University of Business and Technology's (UBT) efforts to address Sustainable Development Goal 13 (SDG13): Climate Action, as part of its participation in the Times Higher Education (THE) Impact Rankings. It showcases UBT's commitment to mitigating the effects of climate change through education and research.

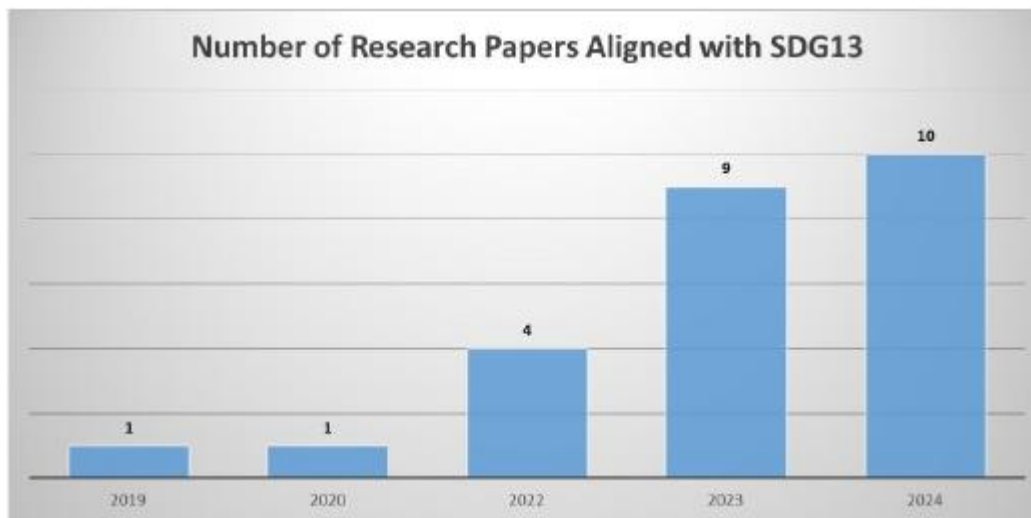

The report details the alignment of 33 academic courses with SDG13, focusing on climate science, sustainable practices, and resilience strategies. It also features 25 research projects dedicated to understanding the impact of climate change, developing innovative carbon reduction methods, and proposing policies and technologies for effective climate mitigation. These contributions reflect UBT's proactive role in advancing climate action and sustainability.

Research's Alignment with The SDG

UBT has conducted 25 research projects aligned with SDG13. These research initiatives include:

- Studies on the impact of climate change on natural and urban environments.
- Research into innovative solutions for carbon reduction and sustainability practices.
- Collaborative projects focused on policy recommendations and technologies for climate mitigation.

These research efforts underscore UBT's commitment to advancing climate action through impactful and solution-driven studies.

Courses' Alignment with The SDG

The University of Business and Technology (UBT) has aligned 33 courses with SDG13. These courses focus on:

- Climate change science and its impact on global systems.
- Exploring sustainable practices to mitigate the effects of climate change.
- Teaching strategies for climate resilience and adaptation in business and communities.

These courses equip students with the knowledge and tools to address the challenges posed by climate change effectively.
